

March 2, 2021

Dear Distinguished Ladies and Gentlemen,

I am in support of the HB 6355. I believe it gives family members and physicians an important tool in keeping people with mental health issues safe from themselves and others. It is important that people must submit a complaint under oath to a judge in Superior Court and only be able to be applied if a judge is convinced of the issues. This will prevent frivolous use of this bill.

Please vote in support of this bill, both on the floor and in committee.

Sincerely,

A handwritten signature in black ink, appearing to read 'Joan Walker', with a long horizontal flourish extending to the right.

Joan Walker
